RIM and Clinical Research

NCRP / RSCP Joint Meeting
24 September 2015
Welcome

Network of Clinical Research Professionals

+ 

Research Support Community of Practice
A Joint Meeting

First Reaction
A Joint Meeting

Second Reaction
The Network of Clinical Research Professionals is an organization supported by the ¡Alianza! program and offers networking opportunities and activities to enhance education, training and career development for clinical research support staff.

• Every clinical department, center and institute
• Continuous learning
• Shared tips & techniques
• Face-to-face meetings
• Career development
The Research Support Community of Practice is a dynamic group of analysts, managers, administrators, and others who share a concern or a passion for supporting MSOM investigators in funding biomedical breakthroughs, and devote a portion of their time to learning how to do it better as they interact regularly at meetings and via electronic means.

• Every department, center and institute
• Continuous learning
• Sharing tips & techniques
• Face-to-face meetings
• Career development
Touchpoints: Clinical Research Process
Our Vision for Clinical Translational Research

A comprehensive and integrated group of experts who will provide services for all affiliated clinical research
Clinical Research Operations & Regulatory Support

- Regulatory support
- Monitoring plans for existing and new IND studies
- Risk-based monitoring for Investigator-Initiated IND/IDE studies
- Training on research related topics

- **NCRP**: All of the above!
- **RSCP**: Share space on Dominion Tower 10th floor
Clinical Translational Research Site (CRC)

- CRB 7, UMH 7 South, UMH 6 West
- Professional, high quality and safe
  - Nursing services
  - Laboratory services
  - Facilities, equipment, study coordination

NCRP: All of the above!
RSCP: Rates and budgets
RD & S

Research Development and Support

- Big Science
- Small Portfolio
- Community of Practice
- Emergency Backup

NCRP: Small portfolio, large clinical trial, unit needs coverage
RSCP: All of the above!
RIM Ops

RIM Research Support Operations

- Data management
- Velos compliance
- Critical equipment
- Preparedness
- Internal awards
- Core facilities
- Metrics
- Finance

**NCRP:** Velos compliance, preparedness, core facilities
**RSCP:** Data, internal awards, metrics
Office of Graduate and Postdoctoral Studies

- PIBS Program
  - PhD in Biomedical Sciences
- Masters Programs
- Postdoctoral Trainees

**NCRP:** Probably not much

**RSCP:** Graduate Fellowship proposals, Training Grant data
Research Writing Center

- Assist faculty in presenting their science to publishers and sponsors
  - Writer
  - Editor
  - Graphic Designer

NCRP: Publications and proposals
RSCP: Proposals
You have a question . . . .

Who you gonna call?
Scenario One

A sponsor asks you what rank your department is in the Federal Fiscal Year 2014 rankings. What’s MSOM NIH ranking?
Scenario Two

A faculty member comes back from a donor luncheon. She says “This Foundation has a little bit of money to disperse before October 31. Can you pull something together?”
Scenario Three

You need to know where the non-standard of care activities can be performed and how much you should budget.
Scenario Four

A physician-scientist asks you to assist with his first clinical trial.
Scenario Five

You need to get CMS approval for an IDE study.
Scenario Six

Your PI wants to propose a clinical trial that includes four MSOM departments.
RIM: A Small but Mighty Force

Working to facilitate quality clinical research at the MSOM
